

EVoline®  
the e-place design

EVoline® Frame Dock

## The principle

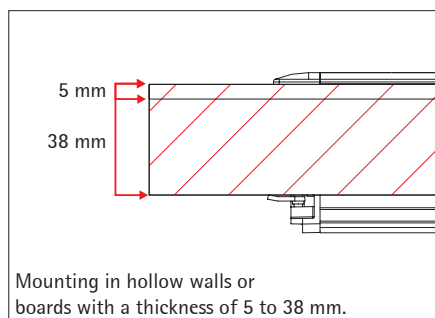

The EVoline® Frame Dock is mounted from the front with 4 lifting clamps for variable wall thicknesses. The screw areas are closed by a cover.

## The applications

Flexible deployment in the table, in counter tops, in the furniture or in hollow walls. Everywhere, where design and order are in demand.

## Your benefits

The Frame Dock is space saving and inconspicuous because of his flat installation height.

## Screw covering

Silver

Black

## EVoline® Frame Dock Individual

Power supply modules

Socket modules

Data modules

Multimedia modules

Pushbutton and switch modules

In addition to the EVoline® Frame Dock standard versions, you are able to individually customise your EVoline® Frame Dock. For further equipment options, please visit our website [www.schulte.com](http://www.schulte.com).
